

of all antiquaries are due to Mr. Alexander Whitelaw of Gartshore for so liberally placing at the service of the Society the labour involved in the extensive excavations at Croy and Barr Hill.

As regards the following Report, the Committee stand deeply indebted to Mr. F. Haverfield, M.A., F.S.A.Lond., for so much time devoted and so great trouble ungrudgingly taken in reading of proofs, and in verification and adjustment of passages in classical texts, as well as for numerous counsels and annotations. Besides, he has contributed, in our Appendix I., a weighty discussion of, and tentative pronouncement on, certain problems of the Roman occupation affecting the Wall and its history. To Dr. James Macdonald, F.S.A.Scot., also is owing hearty recognition for a few emendations which have had the effect of making somewhat fewer the many imperfections of this Report.

GLASGOW, *June*, 1899.
