3^A Special KODAK

A new camera having every refinement that can be put into a pocket instrument, but *no complications*.

The 3A Special makes pictures $3\frac{1}{4} \times 5\frac{1}{2}$ inches, using Kodak Film Cartridges. The optical equipment consists of the famous Zeiss-Kodak Anastigmat Lens (speed *f.* 6.3) and the Compound Shutter, which has an extreme speed of $\frac{1}{2000}$ of a second, working accurately on the instantaneous action from that speed down to one second, and giving also "time" exposures. With this equipment, speed pictures far beyond the ordinary range and snap shots on moderately cloudy days are readily made.

And the camera itself is fully in keeping with its superb optical equipment. It has a rack and pinion for focusing, rising and sliding front, brilliant reversible finder, spirit level, two tripod sockets and focusing scale. The bellows is of soft black leather, and the camera is covered with the finest Persian Morocco. A simple, serviceable instrument, built with the accuracy of a watch and tested with painstaking care. A high-priced camera—but worth the price.

Kodak Catalogue free at the dealers or by mail.
