

You can make lantern slides from your negatives as easily as Velox prints with

VELOX LANTERN SLIDE

**VELOX
LANTERN
SLIDE
FILM**

It simplifies the making of lantern slides for use in the Kodiopticon or any projecting lantern having a water cell cooling device.

Velox Lantern Slides are printed direct from your negatives like Velox prints and are developed in the same light with the same chemicals. They are masked and mounted in Velox Lantern Slide Frames which are so constructed as to eliminate the binding of the edges—more simplicity. The slides are of the highest quality, are light and unbreakable.

Make Velox Lantern Slides from *your* negatives—project them in the Kodiopticon.

Velox Lantern Slide Films, per doz.,	- -	\$.30
Velox Lantern Slide Frames, per doz.,	- -	.20
Velox Lantern Slide Mats, per 2 doz.,	- -	.05
